EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Anderson on April 27, 2004.

The application has been amended as follows:

In the specification:

On page 1, line 2, after "2001," insert --- now abandoned,---

In the claims:

Substitute the following for current claim 11:

--- 11. (currently amended) A device for use with a pipe having a distal end with an opening through which fluid flows during use of the pipe, the device comprising:

a strip of material having a length sufficient to extend between two building supports and apertures adjacent ends of the strip of material sized to allow the passage of fasteners to fasten the strip of material to the supports, the strip of material having therein a plurality of circular holes each of which has at least two slots concentric with the hole, wherein the slots are arcuate and further comprising a secondary opening

Art Unit: 3752

adjacent to and concentric with each slot, the slots and secondary openings being configured so they can accommodate a bayonet mount during use of the device.

The above amendment was required to correctly show the current status of the parent application, and to correct an error in the proposed claim 11 in the previous amendment which was a duplicate of claim 12. It should be noted that the language suggested by applicant for claim 11 was still in error in that it recited the same limitations, the previous limitations of claim 11, twice. The examiner has corrected this in the above version of claim 11, and it is believed that the above is an accurate representation of the original claim 11 combined with claim 10.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James F. Hook whose telephone number is (703) 308-2913. The examiner can normally be reached on Monday to Wednesday, work at home Thursdays.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Mar can be reached on (703) 308-2087. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
